## **CONTENTS NACO DAY 4 (cont.)**

---

---

- 6. Adding a variant corporate name**
- 7-7a. Earlier-later corporate names**
- 8. Changing provisional hdg. to full**
- 9-9a. Changing an existing 4xx to resolve a conflict with a new 1xx**
- 10. Correcting a hdg. (no 670 added)**
- 11. Changing a pre-AACR2 name to AACR2**
- 12. Changing a preliminary record to full**

**Corporate Body See Also References .....**

**P. 49-50**

## **GEOGRAPHIC NAMES: THINGS TO REMEMBER**

**Geographic names are established as 151s (convert to 110 or 710 (indicator set to 1) when used as main or added entries; but 651 as subject)**

**Geographic names always established using reference source (i.e., gazetteers, etc.; see specific sources in LCRI 23.2)**

**Conflict is absolute -- this means if there is another place in the same country, state, etc., with the same name (whether or not it is in your catalog) you must further qualify hdg. (LCRI 23.4F1)**

**Establish in the vernacular -- unless there is an authorized BGN conventional name or the name appears on the BGN-exception list in LCRI 23.2.**

**Geographic names used as qualifiers for corporate hdgs. must be established.**

**When using geographic names in qualifiers use comma(s) to separate jurisdictions. (AACR2 24.4A1)**

**Spell out Mount & Saint in English; for U.K. and Canadian place names see LCRI 23.2.**

**Establish a new NAR when a jurisdiction changes name and connect with see-also refs. or earlier/later see-also refs. (if one-to-one change)**

**Change NARs for local jurisdictions to change the qualifier to the latest form of name of the larger jurisdiction (LCRI 23.4B)**

**When using place names in subject access points use latest form of name unless otherwise noted (SCM H 708)**

## **GEOGRAPHIC NAME REFERENCES THINGS TO REMEMBER**

**Provide x-refs. for city sections through name of city constructed as 410 hdgs. with indicator set to 1 (LCRI 23.4F2)**

**X-refs. through jurisdictions are made only made for government bodies entered directly (LCRI26.3A7)**

**Delete x-refs through jurisdictions when found on NARs for churches, if making other changes (LCRI 24.10B, note #2)**

**On local place name NARs which have been changed because of change in larger jurisdictions-- add previous hdg. as a 4XX (remember to use subfield w set to nnen) (LCRI 23.4B)**

**Make x-ref. as necessary either for the article or without (LCRI 23.2, p. 4 & LCRI 26.3A3)**

up of Soviet Union)**

## **UNIFORM TITLES : THINGS TO REMEMBER**

- 1. AACR2 Chapter 25 is optional!!**
- 2. Uniform titles are used as a means of catalog management; therefore ut policies are institution specific**
- 3. LC does not make a name authority for every uniform title.**

**Most common situations when ut NARs are needed incl.:**

- Same work published under different titles (unrevised editions)**
- Translations**
- Parts of works**
- Need 6XX or 7XX related work added entry on bibliographic record, and no bibliographic record for the work exists in the LC catalog**
- Collective uniform titles:  
    Works  
    Selections  
    Works in a single form (Poems, etc.)**

- 4. A name authority record created to trace a reference may contain no subfield "b" in the 670 citation**
- 5. Not all units of a ut need to be represented by a NAR. (e.g. when cataloging a translation, a NAR for the original title is not likely to be needed)**
- 6. The basic information for uniform titles appears on bibliographic records (130, 240, 7xx), therefore there is often no need to record the information on a NAR (cf. #3 above)**

**Rules for uniform titles not covered by this  
"basic" NACO class:**

- **Series and serials**
- **Music**
- **Religious documents other than the Bible**
- **Legal documents other than laws**

## **NAME/TITLE Authority Records**

*(DCM Z1, Introduction, p. 2)*

Create a NAME/TITLE Authority Record When:

1. A reference must be traced on the authority record.
2. Special research done to establish the heading must be recorded.
3. The heading is needed for a *related work added entry*, and no bibliographic record for the work exists in the LC database.
4. Special information needs to be recorded (e.g., *citation title for a law*)
5. The authority record is needed as part of a project or program (e.g. *NACO participants*)

## **UNIFORM TITLES**

### **MOST COMMON CASES WHERE AUTHORITY RECORDS ARE CREATED**

**Same work published under different titles (un-revised editions)**

**Translations**

**Parts of works**

**Need 6XX or 7XX related work added entry on bibliographic record, and no bibliographic record for the work exists**

**Collective uniform titles:**

**Works**

**Selections**

**Works in a single form (Poems, etc.)**

*(heading for Hemingway: Hemingway, Ernest, 1899-1961)*

Uniform Title Exercises 6

June 2000

NACO Day 4, p. 19

## **SINGLE LAW UNIFORM TITLES: THINGS TO REMEMBER**

### **Dates in the u.t.:**

Always include the date if it is part of the citation title

Supply the date (in parentheses) if the jurisdiction has enacted two or more laws with the same title but the citation title does not include the date

Do not supply the date if the jurisdiction has enacted but a single law with that title when there is no conflict

If date is used in u.t., justify in 670

**References** are not needed unless they are true variants of the law title, not title on t.p.

IF necessary, make a reference without the jurisdiction cf. LCRI25.15A2

### **LAW TITLE CHANGES:**

Change the NAR to reflect the new title (be sure that the law was not re-enacted; if the law was re-enacted make a new NAR)

Law title changes are not coded earlier/later

Make a reference through the old title and code subfield w "nnen"

REMEMBER to justify title change in 670 -- and to report BFM

### **OTHER THINGS TO REMEMBER**

670s should contain the wording as found in the text (this act may be cited as: .... ) to justify u.t.

It is not necessary to justify the jurisdiction if it is not otherwise indicated

If none of the options listed in AACR2 25.15A2 is available to the cataloger make the NAR provisional (code 008/33= c)

**Capitalization:** capitalize the word "code" only if the code was enacted as a single law (cf. Appendix A.20)

## **COLLECTED LAW U.T.s: THINGS TO REMEMBER**

**References** are always made for variants of the title when applying LCRI25.15A1 if a u.t. has been assigned to the collection (cf. 25.2E2)

Make a reference for the title proper constructing it as name/title (cf. LCRI25.15A1)

**670s** for subject compilations should contain the wording as found in the text when using a citation title (this act may be cited as: .... ) to justify the uniform title

It is not necessary to justify the jurisdiction if it is not otherwise indicated

### **Dates:**

Always include a date in collections of U.S. state codes  
(LCRI25.15A1, p. 4)

For other general collections (non-state; non-U.S.) dates are not necessary unless needed to distinguish from other editions bearing the same u.t.  
(LCRI25.15A1, p. 1)

When a date is used in the uniform title remember to justify in 670

► 3	1 10 2	Greenhouse, Arlington, Tex. (Restaurant) ¶					
► 4	4 10 1	Arlington, Tex. \$b Greenhouse (Restaurant)¶					
► 5	5 50	Restaurants, taverns, etc. \$z Texas ¶					
► 6	670	Corbitt, H. Helen Corbitt's Greenhouse cookbook, 1979 (a.e.) \$b t.p. (Greenhouse) pref. (Restaurant in Arlington, Tex; owned by Great Southwest Corp.; estab. 12 yrs. ago) ¶					
► NEW	670	Helen Corbitt's Greenhouse cookbook, 1994.					

---

## GENERAL NOTES ON EVALUATING EXERCISE 1

1. The code a in RULES and CRC indicates a heading using earlier rules, not suitable for use on a fully evaluated AACR2 bibliographic record.
2. Use the addition (Restaurant) to indicate corporateness, AACR2 24.4B1, but not the location for a restaurant, unless the database has a conflict.
3. Optional for NACO: Make a linking reference with \$wnnaa to show pre-AACR2 heading is not a valid reference.
4. Delete 410 1 Arlington...; LCRI 26.3A7, xref through place is for government bodies.
5. Delete 550 Restaurants...; MARC 21 AF 550 blue page, do not use in NARs; Z1 yellow page 5xx, routinely delete all subject-to-name references when changing a record for another reason.
6. Name in 1xx appears in new 670 \$a; no \$b needed.

## REFERENCE EVALUATION EXERCISE 2

ARN: NEW

Rec stat:	n	Entered:	19851311				
> Type:	z	Upd status:	a	Enc lvl:	n	Source:	
Roman:	■	Ref status:	n	Mod rec:		Name use:	a

► 1 010 n85012345  
► 2 040 MARC \$c MARC ¶  
► 3 100 1 Jones, John Robert, \$d 1842- ¶  
► 4 670 Frontier teacher, 1927: \$b t.p. (J. R. Jones) ¶

NEW 670 Father of our university, 1899: \$b t.p. (J. R. Jones) pref.  
(founder of the Univ. of Idaho; b. Pocatello, 1842; d. Moscow,  
1915)¶

---

### GENERAL NOTES ON EVALUATING EXERCISE 2:

1. *The code b in RULES and CRC indicates an AACR1 heading, not suitable for use on a bibliographic record without full evaluation; LCRI 26, Reference Evaluation.*
2. *Usage on both the original and the newer items is J.R. Jones, which doesn't match the AACR1 1xx.*
3. *The date 1842- is so long ago that we'd expect it to be b. 1842, but with the death date available, we'll include both dates.*
4. *Make a cross reference using the fuller form of name, since the "primary elements" are different, and include full dates to match 1xx; LCRI 26.2, Referring from Variant Forms, 2)*
5. *Optional for NACO: Include a 4xx linking reference to the earlier heading, using the \$w control subfield. The string is similar to the new 4xx Jones, John Robert, but contains only the birth date, not the full dates, so normalization is not a problem.*
6. *Adjust the fixed field codes as needed.*
- 7.

## REFERENCE EVALUATION EXERCISE 3

ARN: NEW

Rec stat:	n	Entered:	19871311		
► Type:	z	Upd status:	a	Enc lvl:	n
Roman:	■	Ref status:	b	Mod rec:

► 6	4 10 2	Bowling Green Business University, Bowling Green, Ky. \$b College of Commerce. ¶			
► 7	4 10 2	Western Kentucky University. \$b Bowling Green College of Commerce. ¶			
► 8	5 10 2	Western Kentucky State College. \$b College of Commerce. ¶			
► 9	665	The College of Commerce of Bowling Green Business University was organized in 1922. In 1963 it became the College of Commerce of Western Kentucky State College. In 1966 when Western Kentucky State College was renamed Western Kentucky University, the College of Commerce continued as a part of the University. \$a Works by this body are found under the following headings according to the name used at the time of publication: \$a Bowling Green Business University, Bowling Green, Ky. College of Commerce. \$a Western Kentucky State College. College of Commerce. \$a Western Kentucky University. College of Commerce. \$a SUBJECT ENTRY: Works about this bodies are entered under the name used during the latest period covered.¶			

## **GENERAL NOTES ON REF. EVAL. EXERCISE 3:**

**NACO participants are required to evaluate this AACR2 NAR only if they need to add new information or if the heading doesn't accurately represent the piece. LCRI 26.3B-C discusses reference evaluation in detail. This record includes three different names of the College of Commerce and needs more than one NAR. In all of them:**

**Sequence of names:**

**1922 College of Commerce of Bowling Green Business University**

**1963 College of Commerce of Western Kentucky State College**

**1966 Western Kentucky University, the College of Commerce**

- 8. Delete ending punctuation from 1xx, 4xx, and 5xx fields; Z1 Yellow pages 1xx, 4xx, 5xx**
- 9. Delete 410 1 Bowling Green, Ky. \$b College of Commerce, because there's no need for a reference traced through place.**
- 10. When making NARs for a sequence of names, include earlier and later cross references only for forms of the name which were in use immediately before or immediately after the 1xx form of name; LCRI 26.3B-C, See Also References, p. 1**
- 11. Convert the information in the 665 to a 667, giving only as much as each NAR needs to justify 1xx heading and cross references; 26.3B-C, See Also References, 3) Procedures**
- 12. Add a 670 for the new item which prompted reference evaluation to the NARs which include that name. The new 670 may not belong on all NARs in the sequence; Z1 Yellow pages, 670, General.**
- 13. If there are many earlier forms of name, consider whether a NAR is needed for each form of name for publications in the database, or if the earliest form of name should be a 4xx variant on the nearest NAR.**
- 14. Each name in this group is a 24.13, type 5 subordinate body. The parent bodies must be established.**
- 15. Adjust the fixed field codes as needed.**

# **DUPLICATE HEADINGS: THINGS TO REMEMBER**

## **GUIDELINES FOR DETERMINING WHICH TO KEEP**

### **GENERALLY:**

**Only one NAR for each entity (except earlier/later, pseudonym combos)**

Keep heading which causes the least effort to change or consolidate

If 2 NARs have **different 1xx: keep properly formulated 1xx**

If 2 NARs have **same 1xx: keep the one causing least effort**

If both equal in terms of efficiency, toss a coin

**Transfer data if it adds new or important info to the NAR you keep**

**Search for related NARs; change all NARs affected; submit NARs while under review; replace NARs when independent**

**Search for related bib records with the deleted 1xx; report BFM to Coop liaison**

### **NOTIFYING COOP:**

**Identify which NAR to delete and which NAR to keep**

**Remind liaison of need for BFM via email:**

n86-1234 dup of n93-1244 keep latter; BFM all affected records from:  
Greene, John, 1953- to: Greene, John (John Wayne), 1953-

or: Please delete nr95-1234 in favor of no95-1230; BFM 95-22222)

***Don't AGONIZE! Exercise judgement; Be CONFIDENT!; It's a dynamic file. Any cataloger with more info is welcome to improve the NAR in the future***
